

“Participation Agreement”

I _____, agree not to allow my child _____
to play with any other AAU/Club teams during the Team Select regular season (**beginning of January through end of July**) OR Fall Ball season (**end of August through beginning of November**). Our organization is not here to decide for parents what is best for their child. However, we feel playing for multiple organizations during the same season causes more negative than positive for not only the player but the organization as a whole. Therefore, we must protect the organization by setting this standard within the organization. If you would like a more detailed explanation of why this policy has been put in place, feel free to contact **Ruben Garcia at 925) 367-3912**.

In addition, we are doing our very best to prepare our members for what team sports will be like in high school & college. If a player is going to miss any scheduled team event to include but not limited to (**practice, film study, games, etc.**), the coach must be notified in advance. It will then be the coach’s discretion how much game time (if any) that player will have to miss.
